## New Format for Newsletter 2019

Stuckmeyer's is a family owned farm that has been located in Fenton, Missouri since 1954. A lot has changed since back then! Not as much in the way we farm, it is still very labor intensive, but, technology has continued to evolve. Working in the greenhouses and in the fields makes keeping up with newsletters and the website a late-night task! Since we are a family with 3 generations of Stuckmeyers, we are transitioning to new methods to grow our business to better serve our customers. We enjoy being able to grow and produce locally grown vegetables for our customers. More importantly, we enjoy visiting with our loyal customers and always look forward to meeting new faces.

## Gardening Seminar – “Deer So Cute – But...”

This will be our 17<sup>th</sup> annual Gardening Seminar at Stuckmeyer's. This year our special guest speaker will be a volunteer from the Missouri Department of Conservation. She will be discussing ideas to help prevent deer and other wildlife from destroying your garden and landscape. Come with questions during this interesting topic. Also, during the seminar the staff of Stuckmeyer's will show what is new for this year. We have a few new plants you must try! If you have never made it to a seminar, there is always a tip or two that can be picked up. Plus, many ideas are discussed with those in attendance. The seminar will be held Saturday, April 13<sup>th</sup> starting at 1:00 pm. Refreshments, door prizes, and discounts will be available during the seminar. Please join us and bring a friend. This should be very informative and enjoyable for everyone that attends!
